SUMMARY

Cloud and DevOps enthusiast with hands-on experience deploying a web application on AWS EC2 using Docker. Skilled in AWS, Linux, Git, GitHub, Docker, Networking, Python, SQL with practical knowledge of containerization, cloud deployment, and troubleshooting, along with foundational understanding of DevOps and CI/CD concepts. Seeking an opportunity to apply my technical skills and contribute to real-world cloud and DevOps projects.

SKILLS

Cloud Technologies	: AWS (S3, EC2, Route 53, IAM, RDS, VPC, CloudWatch)
DevOps	: Docker, Git, GitHub, CI/CD, Nginx
Networking	: DNS, Ports & Protocols, Firewall, Security Groups, Network Troubleshooting
Programming Language	: Python
Databases	: SQL
Operating Systems	: Linux, Windows
Tools	: VS Code

PROJECT

AWS Cloud & Docker-Based Portfolio Website Deployment 2026

AWS EC2 | Docker | Nginx | Git | GitHub | Linux

- Deployed a personal portfolio website on AWS EC2 using Docker and Nginx, taking the application from local development to a live cloud environment.
- Containerized the web application using a Dockerfile, built and managed Docker images and containers, and configured port mapping for application access.
- Connected to the Linux-based EC2 instance through SSH, configured AWS Security Group access, and deployed and verified the application using the EC2 public IP.

WORK EXPERIENCE

LET'S MAKE EDUCATION SIMPLE (LMES) 2023 - 2024

Programming Instructor (Python)

- Delivered Python Game Development training to 200+ students, covering core programming concepts, logic, OOP and debugging
- Created coding exercises and practical assignments, strengthening skills in problem-solving, debugging and structured programming.

CERTIFICATIONS

- **AWS Cloud Practitioner Course**
  Qtree Technologies

EDUCATION

Bachelor of Engineering (B.E) in Electronics & Communication Engineering 2018- 2022

Government College of Engineering Bodinayakanur, Theni

- **CGPA - 7.5 / 10**
